

APPLIANCE AND HVAC INDUSTRIES

Customer Solutions Recently Provided

Refrigerant Charging Systems

Vacuum check and refrigerant charging systems to fit a variety of manufacturing environments

- Single Point Processing Station
- Custom Refrigerant Charging Applications
- Cylinder Scale systems
- Refrigerant Pumping systems

Leak Testing Systems

Automated stations that administer pressure, flow, vacuum, and helium leak testing

- Leak Test Stations and Custom Applications
- Helium Recovery and Recycling

Evacuation Systems

Ability to evacuate and monitor multiple units simultaneously and reduce the number of charge stations required

Electrical Safety and Performance Systems

Complete safety, operation and performance testing of manufactured products

- Appliance Testing systems
- Residential/Light Commercial Testing systems
- Commercial Testing systems

Refrigerant Recovery, Reclamation and Supply Systems

Automated refrigerant recovery and reclamation from repair areas, sample charging, production line venting and laboratory testing

- High Pressure Refrigerant Reclamation systems
- Low Pressure Refrigerant Reclamation systems
- Refrigerant Tank Scales and Pumping systems

Plant Wide System Solutions

Full line installation of charging, testing, evacuation, safety/performance and recovery systems

Hydrocarbon Management Systems

Capable of charging Fluorocarbon or Hydrocarbon refrigerants with designs to extend to multiple refrigerant fill applications

- Charging Equipment
- Containment/Safety and Ventilation Equipment
- Reclamation system
- Leak Detection system

Partnering to design, retrofit and transition across to hydrocarbon, HFO/HFC and other A2L refrigerants

Serv-I-Quip, Inc.
